

(Delphi)
Update SST Tariff
Code based on
Stock Group

[Version 1.0]

Jason Lee

[07/12/2018]

SCENARIO

Update Multiple Stock Item's Tariff Code based on Stock Group

SOLUTION

1. Go to File > Utilities > QNE Management Tools
2. QNE will prompt another application (QNE Management Tools)
3. Go to Tools > Intelligence SQL Queries
4. Tick checkbox named 'Overwrite Generated SQL'
5. Copy script from below
update Stock set SSTariffCode = '8504402000'
/*Replace content 8504402000 with your Tariff Code*/
where GroupCode = 'SW'
/*Replace content SW with your Stock Group Code*/
6. Paste into Queries column

7. Click on Execute button to execute the query.
8. Click Exit button to close QNE Management Tools

- 9. You can go to Stock > Stock Items > search and open the Stock Items under defined Stock Group
- 10. Your selected Stock Group's Stock Item's Tariff Code is now updated accordingly
