Save Cancel

Success

OK

 QNE SOFTWARE	QNE TIPS	
	Product : QNE Optimum	Version: 1.00
	Doc No : 1	Page No: 4 of 3

9. Then, please select '**Use default cloud server**' and click '**Save**'

Company Settings

Company Name: ABC COMPANY SDN BHD

Database Connection

Server Name: d3.qne.cloud

Authentication

☐ System Authentication
 ☐ Windows Authentication
 ☒ SQL Authentication

User ID: ONEBSS@ONED3 Password: *****

Database Code: [Dropdown]

Database: [Dropdown] Test Connection

Connection String: Data Source=d3.qne.cloud;Initial Catalog=grated Security=False;User ID=...

QLS Connection

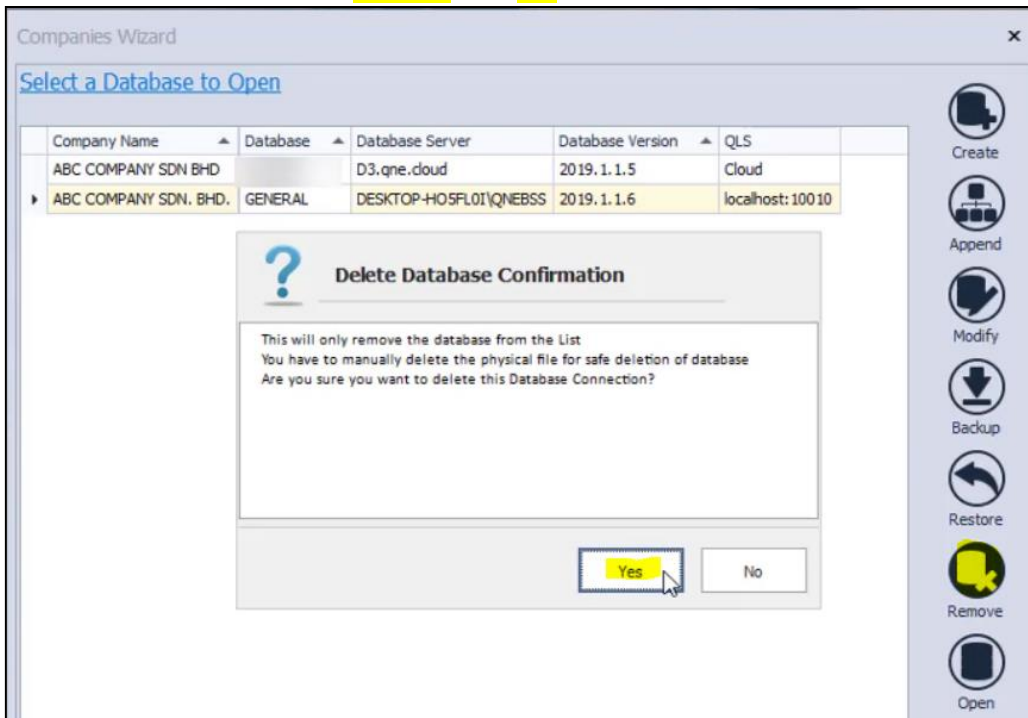

☐ Use my own server
 ☒ Use default cloud server

QLS Server: localhost Port Number: 10010

Save Cancel

10. Next, please remove your previous database path.

Click on the old path > Click '**REMOVE**' and '**YES**'

Companies Wizard

Select a Database to Open

Company Name	Database	Database Server	Database Version	QLS
ABC COMPANY SDN BHD		D3.qne.cloud	2019.1.1.5	Cloud
ABC COMPANY SDN. BHD.	GENERAL	DESKTOP-H05FLOI\QNEBSS	2019.1.1.6	localhost:10010

Delete Database Confirmation

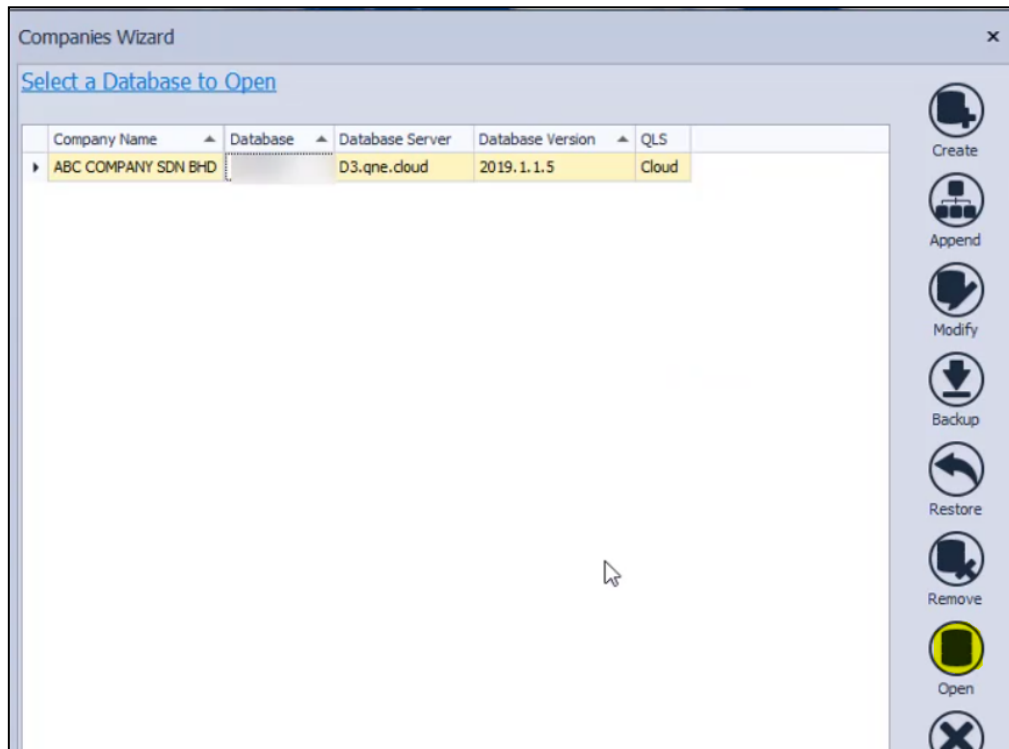

This will only remove the database from the List
You have to manually delete the physical file for safe deletion of database
Are you sure you want to delete this Database Connection?

Yes No

Create
Append
Modify
Backup
Restore
Remove
Open
